Strategic Plan Forward

Acknowledgments

The 2040 City of Central Point strategic planning process would not have been possible without the input, insights, and contributions of our community.

Dozens of residents, working professionals, elected officials, volunteers, City staff, and nonprofit organizations strive to make our community better every day and enthusiastically answered the call to participate in the strategic planning process through a well-attended community forum, a statistically valid citizen survey, and several informal questionnaires.

As we transition from strategic planning to goal/budget development, and ultimately strategic implementation, it is essential to understand that the City will rely on its partnerships, alliances, and stakeholders to deliver the outcomes identified by City Council in our 2040 strategic plan.

Throughout our entire process, the City of Central Point partnered with Davis Consulting Group to assist with the facilitation of the 2040 City of Central Point strategic plan. Specifically, Megan Davis Lightman was instrumental in bridging the competing interests, opinions and values that are represented in this plan.

Finally, the City of Central Point Council is grateful for everyone's contribution to this critical process.

Introduction

The City of Central Point developed this Strategic Plan to articulate the mission, vision, values, and goals of its residents, businesses, and public agencies to more effectively serve those living-in, working-in, or doing business with the City of Central Point. The strategic plan charts a course for the City in response to an assessment of current conditions and anticipated changes within the City, Jackson County, and the Rogue Valley. The 2040 Strategic Plan was enriched by the perspectives of residents, community leaders, and elected officials.

The City Council's primary goal in preparing this plan was to guide future decision-making as the community grows and changes.

Central Point provides its residents with services protecting health, safety, and welfare, including police services, safe drinking water, and stormwater quality. Additionally, the City offers building and planning services, which helps manage smart growth, and supports a more substantial tax base through economic

development. Other services are not considered essential; however, they target increased quality of life through recreation programs, park facilities, streetscapes, public art, and educational programs.

The Central Point City Council is made of citizens who are elected by residents to make policy decisions. These decisions are usually based on information that is assembled by City staff. The staff is also responsible for implementing the Council's policy direction, measuring progress, and providing feedback to the Council and Community on how well the City is doing reaching its goals and objectives.

How the 2040 Strategic Plan is Organized

We understand that typically, strategic plans are designed for 3, 5, and 10-year timelines. However, the Central Point City Council felt with our last strategic plan spanning 13 years; a 20-year strategic planning horizon was within reach. Moreover, the City Council acknowledged that our past practice has been to use budgetary goals on two-year intervals to achieve short-term goals and objectives while relying on a long-term, overarching strategy to remind the Council, Staff, and Community of our "why."

The 2040 strategic plan contains revisions to our previous mission, vision, and values. Additionally, this document identifies five new strategic priorities, each of which includes a series of goals and strategies. Ultimately, the City Council, City Staff, and Stakeholders placed particular emphasis on identifying strategic priorities, goals, and strategies that would serve the community well over the next two decades. However, during the entire strategic planning process, linking our City's future to our heritage and historical beginnings was at the forefront of our planning efforts.

The 2040 strategic plan is designed to allow the City of Central Point to achieve its best future. However, this is a living document, and the Council will perform periodic reviews and update/revise as necessary to ensure that the plan remains flexible and adaptable to the needs of the City.

How the Council Will Use the 2040 Strategic Plan

For the Council to set priorities, it needs input into what issues are worthy of attention, the nature of those issues, and the City's ability—financially and politically—to adequately address each of them. Moving forward, the City Council will establish budgetary goals on two-year cycles (aligning with the biennial budget) that are derived from the 2040 strategic plan. These budgetary goals will not only include high profile capital projects but will consist of operational oversight targets and the tracking of multi-year projects.

How We Developed this Strategic Plan

As part of the 2019-2021 biennial budget, the Budget Committee and City Council discussed the need for an overarching plan to guide future decision-making as the community and organizational change. This citywide strategic planning effort began in September 2019.

The 2040 Strategic Plan emerged over an 18-month long process through three distinct phases:

1. 2019 Citizen survey was conducted in the first quarter of 2019.

2. The City Executive Team began a series of workshops to provide a strategic framework for the City Council in late summer/early fall 2019.
3. The City Council began a series of public meetings, including a community forum in late 2019.

All of these phases included a robust and ongoing dialog among residents, organized stakeholders, partner organizations, City Staff, and the City Council.

What We Learned During Our Process

The strategic plan started with an assessment of the City's current strategic plan. What did the City Council, Staff, Stakeholders, and the Public think about what the City currently does well? About possible areas of improvement? About forces that would affect its future performance? This analysis looked at the City's past performance, current issues, and the internal and external pressures, economic and demographic trends that may affect the City moving forward. A large portion of this analysis relied on the 2019 citizen survey, which included a statistically valid telephone survey and a direct-mailed (utility account) questionnaire.

Overall, the feedback from the 2019 survey was optimistic about the City and the services it provides. More specifically, residents say the City is headed in the right direction and are very satisfied or satisfied with City services overall. A vast majority of residents feel Central Point is exceptionally safe from a public safety standpoint, but understand that issues like mental health, addiction, and homelessness represent challenges. Additionally, City Parks & Open Spaces, Recreation Programs, and City-operated Special Events are all considered as enhancements to the Central Point way of life.

During our analysis of current Central Point conditions, city staff felt two critical exhibits from the 2019 Citizen Survey offer insight into where our focus should remain. In exhibits A & B below, you will see areas of focus favored by Central Point residents in the 2019 Survey.

Exhibit A

Exhibit B

Ultimately, we also learned what we could do better. Generally speaking, we can always improve communication between the City Council, Departments, Staff, and Citizens. Moreover, improving in all areas of communication will allow us to define City strategic priorities better, articulate budget priorities more clearly to the Public, and to provide a resilient focus for accomplishing all of our priorities.

As we prepare to execute on this 20-year plan, we look forward to the continued opportunity to strengthen our relationships with our community partners.

"However beautiful the strategy, you should occasionally look at the results." —Sir Winston Churchill

Community Investment

Public and private investments in Central Point include physical (i.e., new buildings, streets, waterlines, businesses, parks, etc.); social (e.g., programs and services that support people: families, youth, retirees, etc.); and economic (i.e., programs and facilities that foster new growth and development necessary to fuel the local economy and provide jobs for residents).

GOAL 1 - Build a strong city that is fiscally sustainable and provides enhanced services and small-town nuance.

STRATEGY 1 - Partner with Urban Renewal to develop objective criteria to prioritize incentives and investments for planning and infrastructure projects that maximize value to the community in terms of cost-benefit, providing a connection between the east and west sides of town, and providing an urban form that is walkable, attractive and resilient to change.

STRATEGY 2 - Seek and pursue grant opportunities to close fiscal gaps in projects that plan, design, and/or implement projects related to development or redevelopment of lands within the Urban Growth Boundary.

STRATEGY 3 - Partner with telecom and utility companies to offset infrastructure costs.

STRATEGY 4 - Maintain existing public safety services levels as the community continues to expand and promote a community policing program.

STRATEGY 5 - Expand the Pine Street/Downtown Streetscape Improvements.

GOAL 2 - Be a place city filled with happy, healthy people who are thriving.

STRATEGY 1 - Develop and maintain positive partnerships with public and private entities and the community to understand community needs, and leverage resources to develop and deliver opportunities for personal, professional, and/or vocational development. (Recreation Programs, Maker Space, Artisan Corridor, Volunteerism, Community Events, etc.) (Nurturing individuals skills and personal growth is an essential element to Central Point's future. While this is an organic process that must be desired by individuals in the population, the City can make investments that consider and further the goal of providing an environment that is supportive of this objective).

STRATEGY 2 - Through the land development codes and process, foster the creation of "healthy neighborhoods" that provide safe, connected, and comfortable amenities for residents of all ages and abilities to walk, cycle, play, and access community destinations. (Active lifestyles that include people of all abilities are foundational to health and wellbeing).

STRATEGY 3 – Develop and implement an economic development program/toolkit to attract more family-wage jobs to Central Point. (Idea that if needs are met, people are more likely to be happy and make time for leisure, volunteerism, and social interaction).

STRATEGY 4 – Explore partnerships and opportunities to develop and implement urban agriculture projects within the Urban Growth Boundary. (Happy people eat well and know where food comes from).

STRATEGY 5 – Plan, design, build, and maintain a comprehensive system of sustainable facilities, trails, and park spaces, setting the highest standards to provide attractive places people will use and enjoy. Acquire additional lands for active and passive recreation use based on current deficiencies and public demands created by increasing population or the environmental and recreational significance of the area.

STRATEGY 2 – Amend the community’s land use and development codes to adopt standards that reflect the community’s preferences for how new growth areas will look, feel, and function. (As the City grows in response to market demand, this supports the creation of urban form and architectural character that is community-driven rather than developer-driven).
